Contents

NUMBER 1, FEBRUARY

P. J. Legge: Presidential Address: Geoscience 1994 and beyond: thoughts on geology and exploration for world class ore deposits 1

J. C. Aitchison and T. R. Ireland: Age profile of ophiolitic rocks across the Late Palaeozoic New England Orogen, New South Wales: implications for tectonic models 11

J. A. Jones, P. F. Carr, C. L. Fergusson and I. McDougall: Silurian volcanism in the Wollondilly Basin, eastern Lachlan Fold Belt, New South Wales 25

T. Flöttmann, P. James, R. Menpes, P. Cesare, M. Twining, M. Fairclough, J. Randabel and S. Marshak: The structure of Kangaroo Island, South Australia: strain and kinematic partitioning during Delamerian basin and platform reactivation 35

C. V. Murray-Wallace and A. Goede: Aminostratigraphy and electron spin resonance dating of Quaternary coastal neotectonism in Tasmania and the Bass Strait islands 51

J. V. Smith and E. C. Houston: Structure of lava flows of the Nimbin Rhyolite, northeast New South Wales 69

P. W. Baillie and J. B. Jago: Sedimentology of an Upper Cambrian turbidite succession, Smithton Basin, northwest Tasmania 75

M. F. Middleton, S. A. Wilde, B. J. Evans, A. Long, M. Dentith and M. Morawa: Implications of a geoscientific traverse over the Darling Fault Zone, Western Australia 83

C. M. Gray and J. A. Webb: Provenance of Palaeozoic turbidites in the Lachlan Orogenic Belt: strontium isotopic evidence 95

NUMBER 2, APRIL

N. B. Woodward: Thrust systems in the Tamworth Zone, southern New England Orogen, New South Wales 107

T. J. Fowler and K. Iwata: Darriwilian–Gisbornian conodonts from the Triangle Group, Triangle Creek area, New South Wales 119

K. Grey: Neoproterozoic stromatolites from the Skates Hills Formation, Savory Basin, Western Australia, and a review of the distribution of *Acaciella australica* 123

V. J. Morand, W. R. H. Ramsay, M. Hughes and J. M. Stanley: The southern Avoca Fault Zone: site of a newly identified 'greenstone' belt in western Victoria 133

J. Nott and A. C. Purvis: Geomorphic and tectonic significance of Early Cretaceous lavas on the coastal plain, southern New South Wales 145

D. E. Leaman: Mechanics of sill emplacement: comments based on the Tasmanian dolerites 151

P. H. G. M. Dirks and M. Hand: Clarifying temperature – pressure paths via structures in granulite from the Bolingen Islands, Antarctica 157

S. Sheppard: Hybridization of shoshonitic lamprophyre and calcalkaline granite magma in the Early Proterozoic Mt Bundey igneous suite, Northern Territory 173

S. J. Reeves and R. R. Keays: The platinum-group element geochemistry of the Bucknalla Layered Complex, central Queensland 187

D. L. Huston, U. Kuronen and J. Stolz: Waterloo and Agincourt prospects, northern Queensland: contrasting styles of mineralization within the same volcanogenic hydrothermal system 203

R. C. Kerr and J. R. Lister: The lateral intrusion of silicic magmas into unconsolidated sediments: the Tennant Creek porphyry revisited 223

I. H. Wilson: Discussion: Documentation and significance of a major unconformity in the Wonga Belt of the Mt Isa Inlier, northwest Queensland. D. H. Blake: Reply to Discussion 225

V. Anfiloff: Discussion: Dampier Ridge, Tasman Sea, as a stranded continental fragment. I. McDougall, M. A. H. Maboko, P. A. Symonds, M. T. McCulloch, I.S. Williams and H. R. Kudrass: Reply to Discussion 228

NUMBER 3, JUNE

Thematic Issue

Mid- to Lower-Crustal Metamorphism and Fluid-Rock Interaction,
With Reference to the Mt Isa Inlier
Guest Editors: N. H. S. Oliver, I. Cartwright and M. J. Rubenach

N. H. S. Oliver, I. Cartwright and M. J. Rubenach: Introduction 231

M. Sandiford, G. Fraser, J. Arnold, J. Foden and T. Farrow: Some causes and consequences of high-temperature, low-pressure metamorphism in the eastern Mt Lofty Ranges, South Australia 233

S. D. Mildren and M. Sandiford: Heat refraction and low-pressure metamorphism in the northern Flinders Ranges, South Australia 241

B. J. Hensen and B. Zhou: A Pan-African granulite facies metamorphic episode in Prydz Bay, Antarctica: evidence from Sm–Nd garnet dating 249

I. Cartwright, I. S. Buick, T. R. Weaver, J. K. Vry and N. H. S. Oliver: Patterns of fluid flow in Proterozoic calc-silicates: fluid channelling and variations in fluid fluxes and intrinsic permeabilities 259

N. H. S. Oliver: Hydrothermal history of the Mary Kathleen Fold Belt, Mt Isa Block, Queensland 267

G. de Jong and P. J. Williams: Giant metasomatic system formed during exhumation of mid-crustal Proterozoic rocks in the vicinity of the Cloncurry Fault, northwest Queensland 281

T. Aslund, N. H. S. Oliver and I. Cartwright: Metasomatism of the Revenue Granite and aureole rocks, Mt Isa Inlier, Queensland: syndeformational fluid flow and fluid–rock interaction 291

I. S. Buick and I. Cartwright: Fluid–rock interaction during early contact metamorphism of the Reynolds Range Group, central Australia 301

A. J. Barker: Diachronous fluid release and veining associated with out-of-sequence thrusts in the north Scandinavian Caledonides 311

NUMBER 4, AUGUST

J. Ferguson and G. W. Skyring: Redbed-associated sabkhas and tidal flats at Shark Bay, Western Australia: their significance for genetic models of stratiform Cu–(Pb–Zn) deposits 321

A. V. Arakel: Towards developing sediment quality assessment guidelines for aquatic systems: an Australian perspective 335

K. Iwata, B. L. Schmidt, E. C. Leitch, A. D. Allan and T. Watanabe: Ordovician microfossils from the Ballast Formation (Girilambone Group) of New South Wales 371

P. D. Nunn: Lithospheric flexure in southeast Fiji consistent with the tectonic history of islands in the Yasayasa Moala 377

C. Herbert: Sequence stratigraphy of the Late Permian Coal Measures in the Sydney Basin 391

W. K. Witt: Tholeiitic and high-Mg mafic/ultramafic sills in the Eastern Goldfields Province, Western Australia: implications for tectonic settings 407

M. A. Elburg and I. A. Nicholls: Origin of microgranitoid enclaves in the S-type Wilson's Promontory Batholith, Victoria: evidence for magma mingling 423

R. A. Henderson, B. K. Davis and A. G. Cook: Sedgeford Formation, a new Middle Devonian cratonic sequence from central Queensland and its regional significance 437

Corrigendum 445

NUMBER 5, OCTOBER

E. J. Bloem, N. J. McNaughton, D. I. Groves and J. R. Ridley: An indirect lead isotope age determination of gold mineralization at the Corinthia mine, Yilgarn Block, Western Australia 447

E. Paul, K. Stüwe, J. Teasdale and B. Worley: Structural and metamorphic geology of the Windmill Islands, east Antarctica: field evidence for repeated tectonothermal activity 453

P. M. Ashley, R. A. Duncan and C. A. Feebrey: Ebor Volcano and Crescent Complex, northeastern New South Wales: age and geological development 471

D. R. Nelson, J. S. Myers and A. P. Nutman: Chronology and evolution of the Middle Proterozoic Albany–Fraser Orogen, Western Australia 481

A. G. Mazzoleni, Y. Bone and V. A. Gostin: Cathodoluminescence of aragonitic gastropods and cement in Old Man Lake thrombolites, southeastern South Australia 497

N. H. S. Oliver and S. Zakowski: Timing and geometry of deformation, low-pressure metamorphism and anatexis in the eastern Mt Lofty Ranges: the possible role of extension 501

P. C. Augustinus, M. J. Pollington and E. A. Colhoun: Magnetostratigraphy of the Late Cenozoic glacial sequence, Pieman River basin, western Tasmania 509

M. Ahmad: Genesis of tin and tantalum mineralization in pegmatites from the Bynoe area, Pine Creek Geosyncline, Northern Territory 519

NUMBER 6, DECEMBER

REVIEW PAPER

G. H. McNally: Engineering characteristics and uses of duricrusts in Australia 535

RESEARCH PAPERS

D. L. Huston, M. Power, J. B. Gemmell and R. R. Large: Design, calibration and geological application of the first operational Australian laser ablation sulphur isotope microprobe 549

G. Neef, R. S. Bottrill and A. Ritchie: Phanerozoic stratigraphy and structure of the northern Barrier Ranges, western New South Wales 557

S. J. Hageman, Y. Bone, B. McGowran and N. P. James: Modern bryozoan assemblages and distribution on the cool-water Lacepede Shelf, southern Australian margin 571

G. J. O'Halloran and R. A. F. Cas: Evidence for syndepositional deformation from the Late Devonian of the Mansfield Basin, east-central Victoria 581

P. B. O'Sullivan, B. P. Kohn, D. A. Foster and A. J. W. Gleadow: Fission track data from the Bathurst Batholith: evidence for rapid mid-Cretaceous uplift and erosion within the eastern highlands of Australia 597

J. Roberts, E. C. Leitch, P. G. Lennox and R. Offler: Devonian–Carboniferous stratigraphy of the southern Hastings Block, New England Orogen, eastern Australia 609

SHORT PAPER

P. R. Dawes, R. H. Smithies, J. Centofanti and D. C. Podmore: Sunrise Hill unconformity: a newly discovered regional hiatus between Archaean granites and greenstones in the northeastern Pilbara Craton 635
